

LINDSEY COLBERT, PT, DPT
PRESENTS

ADVANCED CONCEPTS IN REHABILITATION OF THE UPPER EXTREMITY

All skill/experience levels

**2-DAY CONTINUING
EDUCATION COURSE
1.5 CEU
(15 CONTACT HOURS)**

CEU credit available for
PT/PTA, OT/COTA, ATC

This advanced course offers updates on post-operative, non-operative and high level rehab progression for shoulder and elbow conditions commonly seen in outpatient orthopedics.

TAKE YOUR SKILLS TO THE NEXT LEVEL

IN THIS COURSE YOU
WILL FIND:

- Discussion of shoulder and elbow biomechanics from basic function to high level performance athletes
- Extensive lab practice for exercise, taping, modalities and manual techniques
- Evidence based updates for rehabilitation principles of common non-operative and post-operative shoulder and elbow conditions
- ... and so much more!
